

KANE JUSTINE A. COMETA

Web Developer | UI/UX Designer | React • Node.js • PostgreSQL • Flask • FastAPI • Figma • Photoshop • Github
cometakanejustine@gmail.com | (+63) 921 325 9656 | linkedin.com/in/kane-justine-cometa | kane-cometa.vercel.app

TECHNICAL SKILLS

Programming & Frameworks: Python, C#, JavaScript, React, Node.js, Flask, FastAPI, .NET
Databases: PostgreSQL, MySQL, SQL
Web & Design: HTML, CSS, Material UI, Figma (Wireframing & Prototyping), UI/UX Design
Tools & Workflow: Git/GitHub, Notion, Microsoft 365 Tools, Photoshop, Agile Project Management

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance) — PetroEnergy Resources Corporation | Sep — Oct 2025

- Enhanced and optimized a full-stack ESG data management dashboard for improved performance and stability.
- Implemented JWT/OAuth authentication, role-based access control (RBAC), and data encryption.
- Integrated full and incremental backup and recovery mechanisms for business continuity.
- Refined UI/UX design and accessibility; led user and administrator training sessions.
- Delivered comprehensive system documentation and facilitated project handover.

Full-Stack Developer (Internship) — PetroEnergy Resources Corporation | Apr — Jul 2025

- Designed and developed a full-stack ESG data management dashboard from data modeling to deployment.
- Built and integrated RESTful APIs with optimized PostgreSQL schema design.
- Developed responsive front-end components using React and Material UI.
- Created detailed user manuals and system documentation; conducted end-user training sessions.
- Collaborated with cross-functional teams to integrate systems and streamline business processes.

Student Assistant — Mapúa Malayan Colleges Laguna | Apr — Jul 2024

- Provided technical and administrative assistance to faculty and students.
- Managed digital and physical records while ensuring data privacy and accuracy.
- Supported coordination of maintenance requests and facility usage tracking.

PROJECTS

Web-Based Institutional Research Repository — Thesis Project (Aug 2024 — Mar 2025)

Tech Stack: JavaScript · Python · React.js · Flask · PostgreSQL · GitHub · NumPy · Pandas · Figma

- Developed a repository and interactive dashboard for ESG data analysis and visualization.

“ESGDash” - ESG Data Repository and Dashboard — Internship Project (Apr – Jul 2025)

Tech Stack: JavaScript · Python · React.js · FastAPI · PostgreSQL · GitHub · Figma

- Created an interactive ESG dashboard for analytics and reporting.

Procurement & Inventory Management System — Software Engineering Project (Dec 2023 – Jun 2024)

Tech Stack: C# · SQL · GitHub · Figma

- Developed a procurement and inventory management software application that streamlined company operations.

CERTIFICATIONS

- Agile Project Management – Google (Feb 2025)
- Data Analytics with Python – IBM (Apr 2025)
- Prompt Engineering – IBM (Apr 2025)
- Front-End Development – Meta (Feb 2025)
- AWS Academy Cloud Foundations – (Nov 2023)
- CompTIA IT Fundamentals (ITF+) – (Jul 2024)

SOFT SKILLS

- Strong communication and presentation skills
- Analytical and systems-oriented thinking
- Collaboration and stakeholder engagement
- Creativity and innovation in problem-solving
- Accuracy and attention to detail
