TECHNICAL SKILLS

Web Development	Python, Flask, Fast API	Agile Project Management
UI/UX Wireframing	HTML, CSS, JavaScript	Git, GitHub
Front End Development	React, Node.js, Material UI	Figma (Wireframing)
Data Management	SQL, PostgreSQL, MySQL	

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Freelance)

September - October 2025

PetroEnergy Resources Corporation - IT Department

- Continued the development of the full-stack ESG data management dashboard initiated during internship,
- Optimized and refined frontend components to improve performance, stability, and overall user experience.
- Implemented JWT/OAuth authentication, role-based access control (RBAC), input validation, and data encryption.
- Integrated comprehensive backup and recovery mechanisms, including full and incremental restore procedures
- Polished the UI/UX design, enhanced accessibility features, and conducted user and administrator training sessions.
- Delivered complete system documentation, facilitated knowledge transfer, and handover during project closure.

Full-Stack Developer (Internship)

April - July 2025

PetroEnergy Resources Corporation - IT Department

- Designed and developed a full-stack ESG data management dashboard from data modeling to deployment.
- Converted UI mockups into responsive and user-friendly React components.
- Built and integrated RESTful APIs with optimized PostgreSQL schema design for efficient data handling.
- Prepared comprehensive system documentation and user manuals, and conducted end-user training sessions.
- Collaborated with cross-functional teams to integrate systems and streamline business processes.

Student Assistant

April - July 2024

Mapúa Malayan Colleges Laguna - Instructional Facilities Office

- Provided technical and administrative support to faculty, staff, and students regarding classroom and facility needs.
- Maintained and updated accurate physical and digital records while ensuring data privacy and confidentiality.
- Assisted in coordinating facility-related requests and implemented efficient tracking for maintenance logs.

PROJECTS

“ESGDash”: Dashboard Web Application

Internship Project | April - July 2025

- Developed a repository and interactive dashboard for ESG data analysis and visualization.

Web-based Institutional Research Repository

Thesis Project | Aug 2024 - March 2025

- Developed a research data repository with analytics dashboard and knowledge graph

Procurement & Inventory Management System

Software Engineering Project | Dec 2023 - June 2024

- Developed a procurement and inventory management software application that streamlined company operations.
